

# halfstep

Climb higher in your music learning

## Problem

Music practice can be lonely, unfocused, filled with self-doubt, and **disconnected from your goals and dreams.**

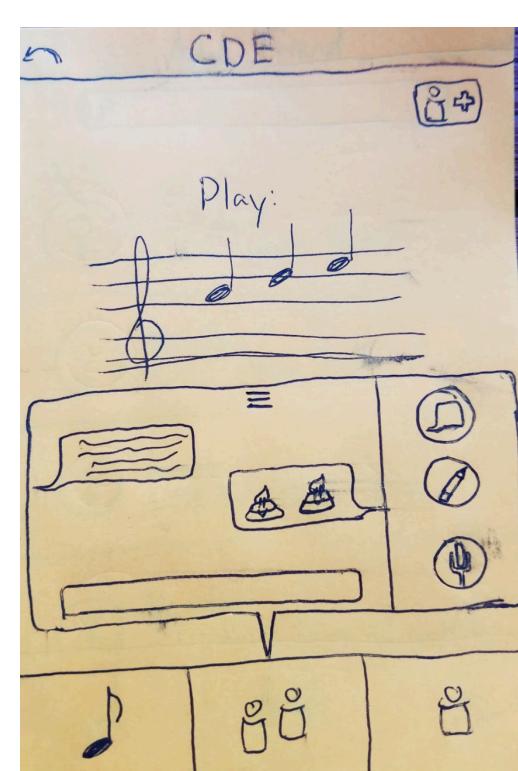

## Process

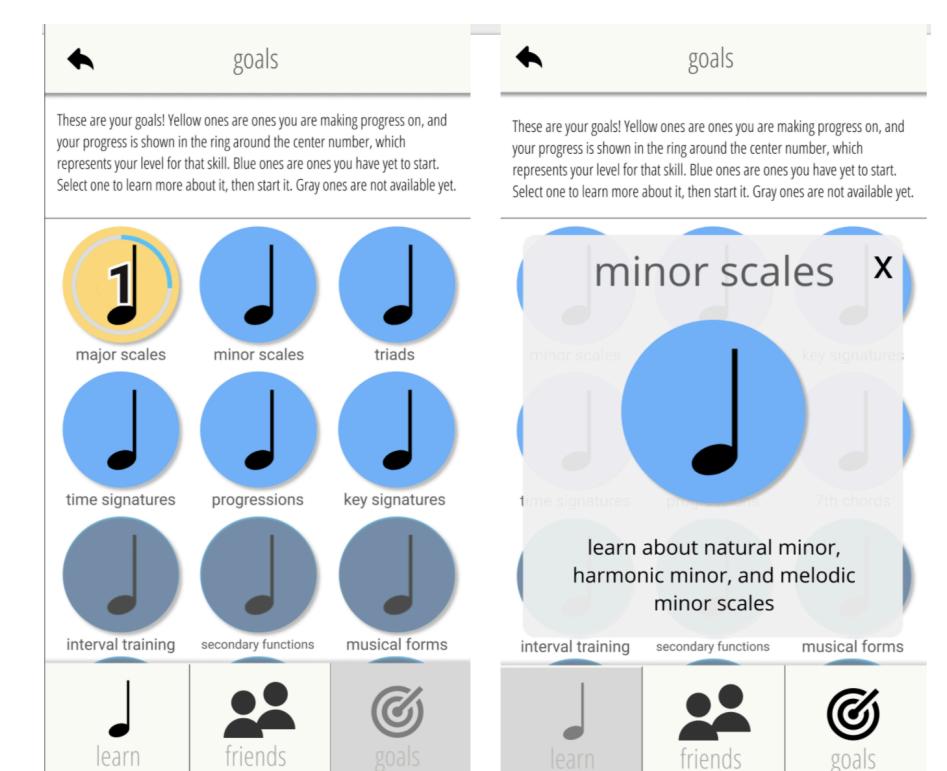

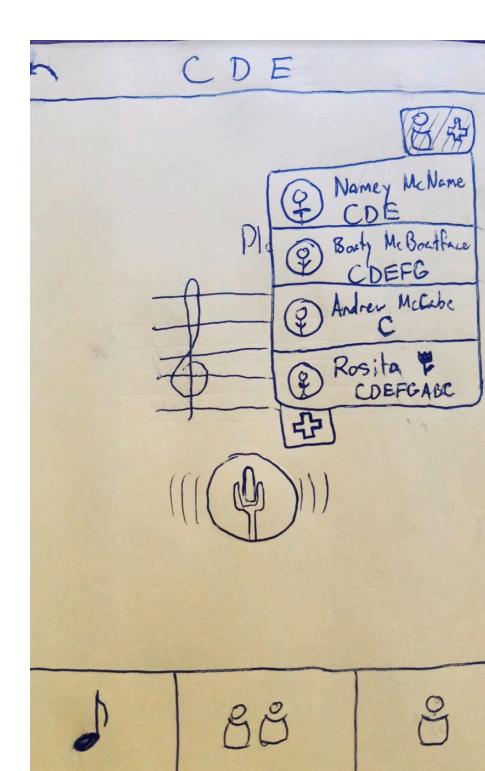

Interviewing musicians and educators, we quickly realized music success was grounded in **social support** and a **clear sense of progress**. Using the design process, we prototyped various solutions, and settled on a mobile app.

Needfinding

Low-fi Prototyping

Heuristic Eval

## Key features

**1. Approach big goals with bite-sized tasks**

**2. Get help from near-peer learners**

**3. Track your progress**
